As Attorney General, Tom Corbett has made protecting seniors a top priority. Just one example: he created the *Elder Abuse Unit* to stop con artists and thieves who target Pennsylvania seniors. The *Elder Abuse Unit* has returned millions of dollars to victims of telemarketing schemes, mail scams and internet fraud, and has locked up criminals who have stolen from and physically abused seniors.

As Governor, Tom Corbett will continue his commitment to protecting senior citizens and do everything he can to make Pennsylvania more senior-friendly.

A PLAN TO MAKE PENNSYLVANIA A BETTER PLACE FOR OUR SENIORS

- ✓ **Cut your property taxes.**
Tom Corbett supports reducing—or even *eliminating*—property taxes. He'll work with the General Assembly to lift the burden from homeowners.
- ✓ **Fix Pennsylvania's long-term care system.**
He'll work to provide cost-effective, consumer-focused, long-term care services promoting preventive care and supporting the well-being of seniors.
- ✓ **Protect your pension.**
Tom Corbett believes the pensions of senior citizens should *not* be taxed. Having signed a pledge not to raise taxes, he'll honor his commitment to protecting Pennsylvania seniors.

- ✓ **Protect the Lottery Fund.**
Tom Corbett will ensure that lottery funds are only used to fund programs like PACE, free and reduced fare rides, home delivered meals, senior community centers, and health & wellness programs.
- ✓ **Let *you* choose *your* care.**
You want to stay in your home and community as long as you can. Tom Corbett will work to make sure you get the care you need, where you want it.
- ✓ **Maintain the Department of Aging.**
Tom Corbett will make sure the Department of Aging stays an independent, cabinet-level department.
